

Philippe Meunier

Computer Science and Technology Programme
BNU-HKBU United International College
Zhuhai, China

meunier@uic.edu.hk

Education

| | |
|---|-----------|
| Ph.D. , Computer Science, Northeastern University, Boston, MA, USA | 2001-2006 |
| M.Sc. , Computer Science, Rice University, Houston, TX, USA | 1999-2001 |
| Engineering degree , Télécom ParisTech, Paris, France | 1991-1994 |

Experience

| | |
|--|----------------|
| Assistant Prof. , Comp. Sci. and Tech. Prog., UIC, Zhuhai, China | 2015-present |
| Assistant Prof. , Dept. of CS and Eng., Ewha Womans Univ., Seoul, Korea | 2010-2015 |
| Lecturer , School of ICT, SIIT, Pathum Thani, Thailand | 2006-2010 |
| Network Engineer , EUnet France, Paris, France | Jan.-Aug. 1999 |
| Lecturer , Math. Sciences Dept., Univ. of Malawi, Zomba, Malawi | 1996-1998 |
| Network Engineer , EUnet France, Paris, France | Mar.-Aug. 1996 |

Selected Publications

P. Meunier, R. Findler, M. Felleisen. *Modular Set-Based Analysis from Contracts*. In Proceedings of 33rd Symposium on Principles of Programming Languages (POPL), Charleston, SC, USA, January 2006.

P. Meunier, R. Findler, P. Steckler, M. Wand. *Selectors Make Set-Based Analysis Too Hard*. Journal of Higher-Order and Symbolic Computation (HOSC), vol. 18(3-4), pp. 245-269, December 2005.

D. Herman, P. Meunier. *Improving the Static Analysis of Embedded Languages via Partial Evaluation*. In Proceedings of Ninth International Conference on Functional Programming (ICFP), pp. 16-27, Snowbird, UT, USA, September 2004.

D. Silva, P. Meunier. *From Python to PLT Scheme*. The Python Conference (PyCon), Washington D.C., USA, March 2004.
